Alabama State University

Dunn-Oliver Acadome Banquet Room

1595 Robert C. Hatch Dr., Montgomery, AL 36101

Registrations begin at 11:00 AM: Park and enter at rear of Acadome.

The protection of sensitive data such as business invoices, payroll records, client and employee data and other proprietary information is essential to a company's success. A computer failure or other system breach could undermine a company's reputation, expose it to costly recovery expenses, and disrupt the business' overall operation. This seminar will help to identify information security vulnerabilities that can put a small business at risk, and the protective tools and techniques used to measure, maintain and guard business information and systems. Small business owners will learn the types of information that should be secured, how to protect themselves from intentional attacks or unintentional damage, guard themselves from decreased productivity caused by security breaches and evaluate the needed security tools and techniques.

PRESENTER: Ahmad Austin, Cy3 Computing, LLC

FREE and open to the public - Just Bring Your Own Bag Lunch!!!
