### ***Program Description:***

Do you have products or services that you would like to sell to the federal government? If the answer is yes, this program will help you determine if the federal market is right for your business! Selling to the federal government can be a complicated and frustrating process. Working with a Small Business Specialist can help simplify the process. Each federal agency has a small business program and many have a Small Business Specialist who serves as a liaison between the agency and the small businesses who want to sell to that agency. The presenter for this two hour program is Michael Faire, Small Business Specialist at Fort Rucker.
